Viewing a Tegrity Recording in Blackboard

Log on to your Blackboard Course

To access Tegrity recordings through Blackboard, go into a course using Tegrity. Note: Internet Explorer is the recommended browser for accessing Tegrity.

Blackboard Course Menu

Click on the "Tegrity Classes" link on the course menu.
Security Warning

Your browser may display a security warning. Click on the appropriate button to view both secure and non-secure content. In this case, click on "No" to view both secure and non-secure content.

Tegrity Interface

The Tegrity interface will bring up the name of the course you entered through. You will see a list of recording the class has been given access to view. Click on the title of the Tegrity recording.
Clicking on a Tegrity recording will display various thumbnails. Click on the first thumbnail to start viewing the Tegrity recording from the beginning.
